Your Invitation to the **Renaissance Private Investment Program**

We invite you to learn how the program and its comprehensive suite of 13 investment pools can help meet your needs and deliver on your expectations.

Combined with the service offered by your investment advisor, RPIP is a sophisticated investment program tailored to you. Whether you seek investment in an individual pool to diversify, or are looking for a complete portfolio, RPIP offers you the flexibility, confidence and value to help you attain your goals.

The Renaissance Private Investment Program is built on three pillars of strength:

Flexibility

Offering You a Truly Customized Solution

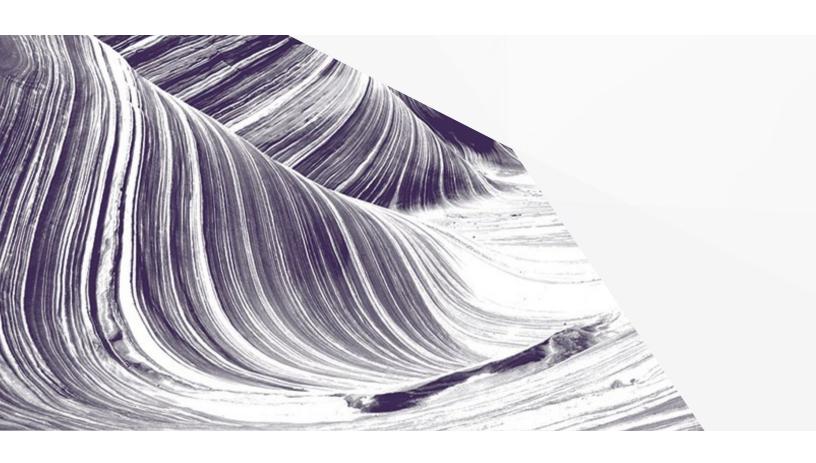

Confidence

The program's unique *flexibility*, combined with your investment advisor's expertise, offers you investment solutions truly customized to reflect your needs.

The comprehensive line-up of investment pools represents a broad range of asset classes, from the traditional to alternative. The program's multiple purchase options offer solutions that address tax-efficiency, income generation, U.S. dollar investing and currency hedging.

Family account linking offers benefits to you and all members of your immediate family, including easier entry into the program and easier access to savings with management fee reductions.¹

Diverse Selection of Investment Pools

RPIP's 13 investment pools cover a wide range of asset classes. To learn more about the best options for your needs, contact your investment advisor.

A truly customized portfolio addresses your personal needs and helps achieve your goals.

Confidence

Value

Your Peace of Mind is Assured

The program, along with your advisor's guidance, offers you the confidence of knowing your money is working for you.

How does the program deliver this peace of mind? We aim to accomplish this through RPIP's framework of discipline and comprehensive pool construction, designed to provide the necessary elements needed to prevail throughout the market cycle.

Robust Oversight, Construction and Manager Selection

Rather than expecting a single professional to navigate every part of a market, or relying on one firm to run every asset class, RPIP takes a multi-manager approach. Our Investment Management Research (IMR) team seeks out investment managers that are asset class experts - and allows them to focus on their strengths - which we believe enriches the program. This allows RPIP's investment pools—and you—to benefit from a variety of management styles, risk mitigation strategies and the potential for enhanced returns.

Open Architecture: Access to Specialists from Around the World

RPIP's open architecture structure offers access to the knowledge and expertise of investment managers from across Canada and around the globe. Through its proprietary process, our IMR team searches the globe for specialized investment managers to build the program's sophisticated pools.

IMR conducts and delivers in-depth manager research and analysis. The team's mission is to create value through the relentless pursuit of managers who can deliver the potential for enhanced returns. IMR uses a comprehensive proprietary process to evaluate manager best practices to understand not only investment execution efficiency, but most importantly manager skill—which we believe is the foundation of superior performance.

All investment manager information is at December 9, 2020.

Your Loyalty is Rewarded

When investing in the program, you are rewarded with value - for your investment dollars and your loyalty. RPIP delivers on your high-value expectations in many ways.

Preferred pricing: Alongside our competitive management expense ratios, additional preferred pricing options are available through management fee reductions, which also reward your loyalty earlier through our family account linking features.

Tax-efficient options: The program offers T-Class purchase options for customizable cash flow requirements and tax efficiency.

Easier Access for Families and Fee Reductions

Family Account Linking

Normally, access to the program requires a minimum \$100,000 investment per pool, per account, or in the case of Renaissance Real Assets Private Pool, a minimum \$10,000 investment per pool, per account. Family account² linking offers you and the members of your immediate family - even those living at different addresses - the ability to combine assets to gain easier entry into RPIP.

How it works:

Combined family account of \$250,000+: Minimum investment amounts are waived across all RPIP pools.3

Management Fee Reductions¹ (MFRs)

The flexibility of our family account linking policy also allows for faster access to savings with management fee reductions (MFRs). An individual or combined family account above \$250,000 within RPIP is eligible for MFRs. Reductions apply not just to amounts over specific thresholds, but right back to the first dollar invested on everything an individual or combined family account² has in RPIP.³

Example

The Brown family wants to invest in various investment pools of the Renaissance Private Investment Program.

Patrick and Jennifer Brown are married and live in Calgary. Together they want to invest \$200,000

Their daughter Ella lives across the street. She wants to invest \$25,000

Their son Alex lives a few kilometres away. He also wants to invest \$25,000

With **\$250,000** invested, the minimum investment is waived for the entire family.3 They are also eligible for MFRs.3

Value for Loyal Investors	Eligible for Management Fee Reductions	Minimum Waived on all Pools ³
Individual or combined family account ² of \$250,000+ within RPIP	YES	YES

⁻ As an individual or combined family account value in RPIP grows, so does the management fee reduction back to the first dollar invested. Contact your investment advisor for more information.
